White Hall is located on the west side of White Hall Road just north of its junction with Mt. Aetna Road in Washington County. It is situated on a rise of ground above White Hall Road and faces east.

The structure is a two-story, seven-bay stone dwelling covered with white stucco. A small, concrete block lean-to is attached to the rear of the house.

The south four bays are recessed under a double porch which is included under the main roof span. This porch is supported by turned posts and is partially enclosed by a plain balustrade.

Windows appear to have been spaced in the front elevation with some concern for symmetry. They have narrow framing and hold two-over-two pane Victorian period sashes, the upper panes having arched tops. Windows at the front elevation are flanked with louvered shutters.

The main entrance is located in the third bay from the north end of the house. The arched entranceway is flanked by pilasters and is lined with paneled jambs which match the six-panel door. Above the door is a semicircular fan with ray muntins. Secondary entrances are located in the two inner bays under the recessed porch. These are simple rectangular openings which include transoms. One entrance is present at the upper level of the porch and at the rear of the house.

The roof is covered with slate and extends beyond the end walls of the house. The eaves boxing is finished with courses of simple molding. A large brick chimney rises from inside the north gable end. Two smaller chimneys are located inside the south gable end and extending from the center of the house.

Immediately behind the house is a small summer kitchen or service building. It is covered with siding and has a large stone and brick exterior chimney. Also present is a stone smokehouse. South of the dwelling is a large stone end bank barn.

The house is in good condition and stands on a tract containing 154 acres.

John Hanna purchased the property on which White Hall is located sometime in the late 19th century. In his will, dated June 3, 1837, Hanna bequeaths his land to his sons. Isaac was to receive the portion later named White Hall, which John Hanna described as including the imOrovements which he occupied. In 1846, the property passed from the Hanna to the Huyett family, in whose possession it remained until 1876.
